

# Bradford™ Black

The natural choice to insulate your home

Low itch and soft to touch

Hypoallergenic, suitable for homes with asthma and allergy sufferers

Easy to install

Australian made, meets requirements of AS/NZS4859.1

A *different* kind of insulation

# Bradford Black, naturally a better choice for your family.

## INSULATION – FOR COMFORT AND ENERGY EFFICIENCY

Insulation is the most cost effective way of making Australian homes more comfortable and energy efficient. Insulation acts as a barrier to heat flow through the walls and ceilings of a home, keeping them cooler in summer and warmer in winter.

By reducing the amount of heat entering or leaving the home, insulation helps homes achieve a comfortable internal temperature with less need for artificial heating and cooling. This makes homes more energy efficient and helps reduce energy bills which is good for the environment and great for the hip pocket.

## WHAT MAKES BRADFORD BLACK SO DIFFERENT?

Bradford Black is soft to touch and comfortable to handle, yet retains its shape as it is installed.

It is made with non-harmful natural binders that are hypoallergenic, and better for the environment too. It has very little odour, does not contain any volatile organic compounds (VOC) and no ozone depleting products are used in its manufacture.

In fact, Bradford Black is so safe it's approved by the National Asthma Council's Sensitive Choice program, making it suitable for use in homes with asthma and allergy sufferers.

## YOU CAN TRUST BRADFORD BLACK TO PERFORM:

- Easy to install
- Soft to touch
- Low itch
- Hypoallergenic, approved partner of National Asthma Council's Sensitive Choice program
- Retains rigidity when installing
- Sustainably made with renewable raw materials
- Australian made
- Low odour
- Non combustible
- Meets requirements of AS/NZS4859.1
- 70 year product warranty

## THE COMFORTABLE CHOICE FOR DIY INSTALLATION

Installation is easy for homeowners, handymen and builders. The batts are tightly compressed into lightweight packs for easy transport and storage. They retain their shape and rigidity for easier installation, and are low itch and soft to touch.

Bradford Black is a different kind of insulation. It's made with safe organic binders in a revolutionary manufacturing process that produces a high performance, low itch, hypoallergenic insulation.
